DANCE KNOWLEDGE

EXPERIMENTAL

*

The styles listed are the ones I'm able to do on an advanced level. Over time, I have learned many more, understanding their foundation and intention.

URBAN DANCE

Urban Dance is a fusion of urban styles, based mostly on Hip Hop. It is usually put into choreography and taught at dance schools, camps or workshops. In our time and generation, it is extremely present.

COMMERCIAL

Born for shows, ads and music videos, Commercial makes you feel and look like a star. It can be seen in music videos, on background dancers and on stage.

EXPERIMENTAL

Experimental moves beyond conventional and societal norms. At every (alternative) art event – exhibitions, theatres and more – it embodies stories and breaks our understanding of reality.

HIP HOP

As part of the Hip Hop culture, Hip Hop as a dance style is to this day freestyle-based. Understanding Hip Hop foundation is vital in order to understand the roots of urban dance and other elements like rap, streetwear or street art.
